Trends in Vacuum Science & Technology

Trends in Vacuum Science & Technology publishes critical reviews and original papers on latest advances in the many areas which require the production and control of a working environment at pressure below one atmosphere. The topics covered by the journal are interdisciplinary ranging from fundamental vacuum science to industrial systems and processes. The articles cover the interests of many groups. This includes vacuum specialists, surface scientists, engineers, physicists, chemists, electronic device specialists and materials scientists.

Editorial Advisory Board

Editor: J. Menon (Canada)

O. Auciello (USA)	A. Ignatiev (USA)
H. Biederman (Czech Republic)	D. S. Karpuzov (Bulgaria)
R. W. Dobrozemsky (Austria)	S. J. Pearton (USA)

Current Topics in Pharmacology

Current Topics in Pharmacology is an international forum to communicate current perspectives in drug research. The journal presents research in basic and clinical pharmacology and related fields. It covers biochemical pharmacology, molecular pharmacology, immunopharmacology, pharmacogenetics, analytical toxicology, neuropsychopharmacology, drug metabolism, pharmacokinetics and clinical pharmacology. It publishes full-length review articles, mini-reviews and original research communications.

Editorial Advisory Board

A. Bruni (Italy)	E. Paroli (Italy)

Current Topics in Steroid Research

Current Topics in Steroid Research is an international journal devoted to publication of review articles and original research papers on all aspects of steroids. It focuses on both experimental and theoretical studies in chemistry and physiochemistry, molecular biology, physiology, pharmacology, biosynthesis, metabolism, analytical techniques, comparative endocrinology, clinical research, mode of action and the role of steroids on growth and differentiation.

Editorial Advisory Board

Current Topics in Genetics

Current Topics in Genetics considers for publication review articles, original articles and short communications presenting research results in the broad area of genetics and all related scientific disciplines. Articles at all levels - classical genetics, molecular genetics, genomics, functional genomics, population genetics and combinations thereof - are of interest to the journal.

Editorial Advisory Board

R. Berger (France)	N. K. Spurr (UK)
I. Hansmann (Germany)	G. R. Sutherland (Australia)

Library Recommendation Form

RESEARCH

TRENDS

To
The Librarian, _____
From _____
Prof./Dr./Mr./Ms. _____ Ph: _____

Dept./Faculty: _____

Dear Librarian,
I would like to recommend that our library subscribe to the following research journals/books published by RESEARCH TRENDS:

1. _____

2. _____

Please initiate a subscription using the attached Order Form.
Thank you.

Order Form

Please enter my subscription for the following / send me the following publication(s):

1) Title _____
Vol. _____ Issue _____ Year _____ Copies _____

ISSN/ISBN _____

2) Title _____
Vol. _____ Issue _____ Year _____ Copies _____

ISSN/ISBN _____

Cheque enclosed Please bill me
